The Times.

Office—Temple, Main and New High.

We learn that some of our more enterprising fruit-growers are waking up to the necessity of having Los Angeles county more fully represented in the line of citrus fruits at the World's Exposition. Our New Orleans letter in last Sunday's issue of the TIMES has attracted attention, and there is a commendable disposition shown to respond to its appeal directed to Californians. By a little concert of action on the part of orange-growers in the different sections of the county, it will be easy to arrange for the simultaneous or combined shipment of their fruits on a single day, so as to have them reach the Exposition in a fresh and attractive state. We learn that one of our fruit-dealing houses has offered to do the packing and shipping without charge, whenever the fruit is forthcoming from the ranchos. The watchword with our fruit-growers should be, "We'll get away with those sand-hillers of Florida on oranges, or die in the attempt!" "Let it be recorded."

TWO INQUESTS.

A Sudden Death on Los Angeles Street and Another at the St. Elmo Hotel.

On Sunday, about 12:30 o'clock, George W. Ball, aged 37, and a native of Ireland, died at No. 38 Los Angeles street. Coroner McFarland was notified and the remains were at once removed to the morgue. An inquest was held yesterday afternoon, the jury's verdict being death caused by paralysis of the heart, superinduced by alcoholism and exposure in the county jail. Ball has lived about Los Angeles for several years and during the last few months, until about two weeks ago, was employed as a nurse in the County Hospital. About a week ago while drunk he fell on the street near the St. Charles Hotel and cut a slight gash in his head. He was removed to the jail, where Health Officer Dr. Baker attended him. The jail accommodation being so bad for a sick man, Dr. Baker had the man taken to No. 38 Los Angeles street. The next day his patient was up and going about, so Dr. Baker saw nothing more of him until called after the man's death on Sunday.

THE FOWLER CASE.

Gus. H. Fowler, for nearly four years a resident of this county, and for the most part of the time a guest at the St. Elmo Hotel, died suddenly on Sunday night at the hotel. Mr. Fowler came to the Pacific Coast several years ago from Princeton, Kentucky, where his mother and daughter reside. The deceased was taken ill about 6:30 o'clock and was at once conveyed to his room. Dr. Martin, a guest in the house, went in to relieve him until Dr. Owen, who had been sent for, could arrive. The patient was suffering from severe pains in the chest, and all that could be done to relieve him was tried, giving but little relief. An attendant remained with the sick man after the physician retired for the night. During the evening Mr. Fowler spoke to Mr. Owen, day clerk of the hotel, in regard to a life insurance policy he had in the Order of Chosen Friends, and also said he would like Dr. Fulton, formerly of Fulton Wells, to take charge of his effects, as he (Mr. Fowler) knew that he could not get well. About 11 o'clock the patient spoke to the colored attendant, telling him to go and lie down, which the man did. In a few moments he heard Mr. Fowler tossing restlessly about and, on going to the bed, saw at once that he was in a critical condition and died in a few moments, without again speaking.

An inquest was held yesterday afternoon and a verdict of death resulting from congestion of the lungs was rendered.

The funeral will take place from Mr. Brown's undertaking establishment this afternoon at 3 o'clock.

AMUSEMENTS.

There was a moderately large audience at the Grand Opera House last evening to greet W. E. Sheridan on his return for a brief engagement in this city. The play of the evening, *The Marble Heart*, proved very attractive, much more so than those which occupied the boards last week. It was, in fact, a decided hit. Mr. Sheridan lost none of the good opinions which he gained here last autumn, and the admirers of Miss Davenport and the other members of the company had the pleasure of seeing them in a play far better adapted to display their varied talents than any they have thus far produced in Los Angeles. Miss Clyde Harron, and Mr. Mainhall, in their respective roles, acquitted themselves creditably. *The Marble Heart* will be repeated this evening.

THE HEINE QUARTETTE—As has already been announced, the second recital of the Heine Quartette will be given at Opera Hall this evening. It promises to be a most enjoyable entertainment to the lovers of classical music.

Gone Before.

Mrs. J. J. Gee, wife of James J. Gee, soliciting agent of the Herald, and formerly of the TIMES force, died at the family residence, 509 Sixth street, yesterday. Mrs. Gee was a lady beloved by all who knew her, and in this deep affliction the husband has the sympathy of a large circle of mourning friends. An infant, but a few hours old at the time of the mother's death, is doing nicely. The funeral will take place this morning at 9:30 o'clock, high mass being celebrated in the Cathedral.

Departure of the Assemblymen.

The Legislative Committees left for Sacramento on Sunday, Mr. Moffitt only remaining until Monday. The gentlemen expressed themselves as highly pleased with Los Angeles, and more than pleased with the cordial welcome extended them by all with whom they came in contact. They returned to their duties at Sacramento with the best good will towards Southern California, and a determination to further her interests as much as it is in their power to do.

Sudden Death.

Mr. John Curtis died at San Gorgonio January 25th, at 1 P. M. He arrived a week ago from Winthrop, Conn., in company with several friends, among them his brother, A. A. Curtis, of this city, who had been on a visit to his old home at that place. The deceased was but 31 years of age, in good health when leaving home, but caught a severe cold, which suddenly developed into pleuropneumonia, with the result as above stated.

GALVESTON ALARMED.

Suicide of a Prominent Cotton Dealer and Failure of His Bank.

GALVESTON, Texas, January 26.—The city is in a tremor of excitement since early this morning in consequence of the tragic suicide of Clinton G. Wells, a prominent dealer on the Tobacco and Cotton Exchange. The doors of the Island City Savings Bank were not opened this morning causing great uneasiness and alarm among the depositors, who are chiefly poor people. Wells was also president of this bank and a member of the prominent firm of Walston, Wells and Vider, cotton factors. About noon it became known that both concerns were insolvent.

A meeting of the directors of the bank was held to-night as a result of which the following card, signed by all the members of the board, was issued for publication: "In the limited time we have had to examine into the affairs of the Island City Savings Bank, we find that the assets will realize about seventy cents on the dollar, and the stockholders will certainly lose their capital. If the stockholders will surrender their stock, we, together with others, will agree to raise $100,000 new capital and will assume the liabilities to the present depositors if accepted by all on the basis of seventy cents, payable in three, six, nine and twelve months." It is not believed that this proposition will be accepted by all the stockholders. Attachments aggregating $140,000 were placed on the bank this evening. Walston, Wells & Vider gave notice of their suspension this afternoon. Their liabilities are over $300,000; assets between $600,000 and $800,000.

Senate.

WASHINGTON, Jan. 26.—In the Senate, Mr. Bayard called up his resolution of Saturday relating to the dynamite outrages in England. Mr. Bayard said he was better satisfied after the lapse of a day in asking the Senate now to adopt the resolution, because the body this morning had an opportunity to affirm deliberately what naturally and instinctively prompted the expression on the instant of receiving information of the uncivilized, cruel and barbarious attempt to destroy, in another country, human life, and with it buildings dedicated to the government and laws in the vain hope possibly to gain relief from suffering by thus overthrowing law itself in its very citadel. It seemed eminently proper, Mr. Bayard added, that the lawmaking body of the American people should express its antagonism to a spirit which, by destroying law, would necessarily destroy all hopes of liberty that could only exist under law.

Mr. Riddleberger declared that there was an open state of war between certain of the Irish race and England. He read an account of the assault upon an American in England. The resolution which was before the Senate expressed the indignation of the Senate at the blowing up of certain buildings in which the laws of England were made, laws which guaranteed liberty to the subjects of Great Britain. That reason was not sufficient for Mr. Riddleberger. "We could not," he said, "be expected to approve all methods of the Irish people, but while we were ourselves preparing and experimenting with dynamite to blow vessels out of water and to drown people in the ocean, it scarcely becomes us to say that people who did not constitute a government and could not make proclamations of war, should not use the same implements of war that we would use under the same circumstances. Put any of us in a country where we could not exercise the God-given right of owning a foot of land, even though earned with the sweat of our faces, and then see what methods we would employ. He did not mean to justify the method, but he would not vote for any resolution that might be distorted into an expression of sympathy or even of common fellowship with a country that knows nothing but cruelty and gives none of her subjects the right to exercise that liberty that we on this side of the Atlantic believed to belong to every people. A short time ago the Houses of Congress had heard of a judicial opinion rendered "over yonder" punishing some Irishmen, in which the Judge violated every principle of the common law, every principle of the bill of rights, every principle of the Magna Charta, every principle of the constitution, in determining questions of fact for the jury. Had any expression of indignation been heard in the Senate? No. If an English Judge having Irishmen on trial before him, could say to the jury, "these are the facts," without eliciting any expression of indignation on the part of the United States Senate he (Riddleberger) must beg to be excused from expressing sympathy for the blowing up of the buildings in which the laws were made that were administered by such Judges. We are so neutral here, he continued, that some Senators think we ought not to dig a ditch (alluding to the Nicaragua canal) without the consent of England; so neutral that we could not give an opinion about anything regarding England except an adverse opinion about poor struggling Ireland. Although Ireland's natural increase, Riddleberger continued, had been equal to that of England, there were not, by two millions as many inhabitants in Ireland to-day as their were twenty years ago. Such was the result of oppression. Any resolution that might be passed here would be construed as a resolution of sympathy and fellowship with the government of cruelty and tyranny. The resolution before the Senate he regarded as the mere expression of sympathy with the British government and he would not vote for it.

Mr. Ingalls said the feeling was prevalent that England would endeavor to bring some pressure upon America, growing out of Saturday's happenings. He would vote for the resolution, not as an apology, not as an expression of sympathy, but as an expression of abhorrence for such crimes.

Messrs. Hoar and Hawley spoke in the same strain.

The resolution was adopted—63 to 1, Mr. Riddleberger alone voting against it.

The resolution as agreed to is as follows:

Resolved, That the Senate of the United States has heard with indignation and profound sorrow of the attempt to destroy the Houses of

The Branch-Asylum Bills.

The proposition for the establishment of a third insane asylum in this State, to be located in Southern California, has been discussed so much of late, both here and at Sacramento, that the question has become almost an issue before the people. The following is a full summary of the two measures bearing on the subject, which have been respectively introduced by Col. E. E. Edwards of Los Angeles, and Mr. Pellet of Napa:

THE EDWARDS BILL.

This provides for the establishment in Los Angeles, San Diego, San Bernardino or Santa Barbara county, of an institution to be known as the "Southern California State Asylum for the Insane." The site is to be chosen by three commisrioners, to be appointed by the Governor. In making selection they are to be governed solely by the adaptability of the place to the purposes of the institution, taking into consideration the healthfulness of the locality, its proximity to the center of population, convenience of access from different parts of the State, and particularly the Southern counties of the State, the supply of water, and the general sanitary surroundings.

The Commissioners must report in three months. They shall receive no compensation for their services; but their traveling expenses, not exceeding three hundred dollars for each Commissioner, shall be paid by the State. Their selection of a site, and their acts and contracts with reference thereto, shall be subject to the approval of the Governor, and when approved by him the powers and duties of the Commissioners shall cease. If the Governor disapproves their action, he may direct them to proceed anew, or may appoint other Commissioners with like powers as hereinbefore provided, and with the same duties as above described. When the site for the Asylum and the title have been obtained, the Governor shall appoint five Directors to manage the affairs of the institution, three of whom shall hold their offices for two years, and two of them for four years; and the term for which each person is appointed shall be designated at the time of his appointment. And all Directors appointed, except the members of the first Board, shall hold their offices for four years after their appointment; except that when a vacancy occurs in the Board, the Governor shall have the power to fill such vacancy by appointment for the balance of the unexpired term. The Directors appointed by the Governor, as above provided, shall take the usual oath of office, and the first Board appointed shall, immediately after their appointment and qualification, enter upon the discharge of their duties, and they shall procure plans, specifications, etc., for the construction of the asylum. The contracts are to be let to the lowest bidders. The asylum erected must have accommodations for not exceeding 500 patients. The bill appropriates $200,000 to obtain said site and erect the building, and to be placed in a fund to be known as the Southern California Asylum Fund. The Controller of State is authorized to draw his warrants on the Treasurer of State in favor of the Board of Directors, on their requisition, upon the fund hereby created, with the approval of the State Board of Examiners; but not more than $15,000 shall be drawn at any one time for building purposes, nor shall the Board of Examiners approve any requisition except the first until a detailed account of the expenditure of the sum previously drawn shall be filed with said State Board of Examiners by the Board of Directors; *provided, however*, that the Controller shall draw his warrant for the payment for the site purchased upon the requisition of the Commissioners hereinbefore provided for, with the approval of the Governor. The provisions of the Political Code, providing for the management of the Stockton Insane Asylum and the care of the insane, are made applicable to the Southern California State Asylum; provided, however, that the Board of Directors shall not elect an assistant physician to the Medical Superintendent till the number of patients in the asylum shall exceed fifty, nor more than one assistant till the number of patients exceeds two hundred. After the Asylum is prepared to take care of the insane, all persons committed to an insane asylum from the counties of San Diego, Los Angeles, San Bernardino, Ventura and Santa Barbara shall be committed to it, and the insane elsewhere in the State may be committed to it.

THE PELLET BILL.

This provides for a new asylum, to be named according to the county in which it shall be located, authorizes the Governor to appoint five trustees who shall select the site and cause the asylum to be erected. The trustees shall serve four years and their successors shall be appointed by the Governor, three to serve two years and two for four years, the Governor filling any vacancies that may occur. The trustees first appointed shall, "by and with the advice and recommendation of the resident physician of the Insane Asylum at Napa and the Medical Superintendent of the Insane Asylum at Stockton," select the asylum site. The trustees shall ascertain the cost of the site, and report to the State Board of Examiners for approval, and, if approved by the Board of Examiners, but not otherwise, shall purchase the same for the State. The site being selected, plans, specifications, etc., shall be procured "by and with advice and recommendation of the resident physician of the Insane Asylum at Napa, and the Medical Superintendent of the Insane Asylum at Stockton," again, and submitted to the State Board of Examiners for approval, and upon approval, but not otherwise, the construction of the said asylum shall begin, but no plan shall be adopted or approved unless suitable for the accommodation and treatment of at least six hundred patients at one time. The building contracts shall be awarded to the lowest bidders, subject to the approval of the State Board of Examiners, but no bid shall be accepted or approved, the amount of which added to the cost of the purchase of the site, shall exceed the sum of $600,000. On the completion of the asylum it shall be conducted under the management of the trustees. They shall choose a medical director for four years, and, on his nomination, an assistant physician. The salaries of the medical director and the assistant physician shall be of the same amount as those allowed to the resident physician and assistant physician, respectively, at the State Asylum for the Insane at Napa. Except in so far as limited or enlarged by the provisions of this act, the trustees shall have the same power, duties and obligations as are conferred by law upon the trustees of the State Asylum for the Insane at Napa, and shall receive like compensation. For the purchase of the site and the erection of the asylum the sum of $600,000 is appropriated, of which amount one-half is appropriated for the thirty-seventh fiscal year, and the other half for the thirty-eighth fiscal year, to be paid out of the general fund.

The object of the Pellet bill is plain enough. It is to keep the expenditure of any moneys that may be voted by the Legislature for providing increased insane-asylum accommodations, in the hands of the managers of the existing institutions. The appropriation named in the Pellet bill—$600,000—is a very large one, and shows that the projectors of the northern scheme are inclined to run their arms into the State treasury clean up to the elbow. With one-third of this amount a new building can be erected under the Edwards bill, located in Southern California, adequate for the purpose required, and conveniently situated with reference to its accessibility from the entire southern half of the State.

The fact that Colonel Edwards's bill was taken from the Committee on Public Buildings and Grounds, which was friendly to it, at the instance of the physician in charge of the Napa and Stockton asylums, and referred to the Committee on State Hospitals, which has charge of the Pellet bill, reveals the purpose in view, which is, in plain terms, to kill the southern scheme. Let its friends face the fact and act accordingly.

No. 7 South Main

Opposite Grand Opera House.

To those who are interested in gaining beautiful homes in Los Angeles and adjoining towns I wish to say that it will be a pleasure to me to give them all the information in my power. I also keep a carriage constantly on hand to show property free of all expense to THOSE WHO WISH TO INVEST.

I make a specialty of Los Angeles city and county lands, and find that I have all that I can do. I also guarantee to represent property just as it is and at its true value. Property that is brought in for me to sell, and on which fancy prices have been placed, I do not take the trouble to show to my customers, as it is throwing away my time to do so, and time is money.

I also wish to say a few words in favor of the best residence property in this city,

Boyle Heights.

It is a place where ladies and gentlemen can go out driving during this rainy weather without danger of getting stuck in the mud; a place where those in search of healthy locations for homes may select their locations at once, without having to wait six months to do so; a place where the altitude is sufficient to bar all malarial diseases, and where a boat will not be required to get to and from the street cars during the rainy season; a place where the drainage is excellent, and where one can have a splendid view of the surrounding country, enjoy the beautiful sunshine and breathe the pure air direct from the ocean; a place where residence lots may be had at this time at a very low figure, but where, in a few years from now, for the reasons mentioned above, they will command a much higher price than lots in any other part of the city the same distance out.

All persons in search of desirable locations for homes at reasonable prices, and who desire to locate in a good neighborhood where the improvements so far are first-class, will find it to their interest to thoroughly examine this fine residence property. We have all the maps and prices of all the building lots and acre tracts on the Heights and are better posted on Boyle Heights property than any agents in the city.

We also have a very large list of ranches, from 5 acres upwards, at prices that those who wish to buy cannot find fault with.

HOUSES AND LOTS: Of these we have a very fine list. We can sell you new houses, hard-finished, of 4 rooms, water piped in house, for $900 and $1000, close to horse cars, ON THE INSTALMENT PLAN.

FOR EXCHANGE: We have quite a number of ranches that we can exchange for city property.

CONSUMPTION.

The early symptoms of this disease are a sense of weariness upon little exertion, and disposition to remain passive and idle; a peculiar sensitiveness of the effects of cold, and a shortness of breath upon moving quickly or ascending a hill or stairs, a slight hacking cough with or without expectoration, flying pains throughout the chest or back or under the shoulder-blades; the symptoms are worse towards or during the night; slight fever in the afternoon, cold feet and hands, and in many cases blue lividity of the lips and roots of the finger nails. The more advanced symptoms are wasting of flesh, diarrhœa, chills and fever, night sweats, expectoration of yellow pus from the ulcers or cavities in the lungs, with or without a depression of the chest, increasing weakness, and at last a closing up of the air passages of the lungs, causing strangulation or suffocation of the patient for want of power to expectorate the mucus from the lungs. Heretofore the treatment of consumption has been very unsatisfactory, both to physicians and their patients, but luckily, since the discovery of the Aerean system of practice, a few years ago, thousands of cases have been completely cured, where, had it not been for this system of practice, utter failure to combat the evils of the disease would have continued up to the present time. The system of Medicated Inhalation is the only means by which these diseases can be cured. By this means we are enabled to dissolve the hardened mucus in the lungs, ease the cough, facilitate expectoration, contract and heal ulcers and cavities after all hope of cure by ordinary methods is passed. COMPOUND OXYGEN.

THIS MEANS (1) OXYGEN, THE VITAL element of the air, without which no life can exist for a moment; (2) Nitrogen, the conservative and preservative element; (3) Magnetism, with which the O and the N are scientifically combined and intensified. And this gives us a curative agent without an equal, that contains three life-giving and health preserving elements of nature's own selection and of universal application. A poet has named it, "Nature's Triple Elixir of Life," and a doctor has styled it, "Nature's Own Remedy for Many Diseases." It differs from medicines, (1) In that it is not a medicine in any sense, any more than the air we breathe or the electric fluid; (2) It differs from medicine in that, being inhaled into the lungs, it is absorbed directly by the blood and cures by a natural process of revitalization and cleansing; (3) It differs from medicine in that its sphere of action is universal, thus adapting it, as the reader will see, to most diseases of the human body; (4) It differs from all medicines or other remedies in that it has cured 95 persons out of every 100 who have taken it. It cannot cure, of course, where there is nothing to build upon. As thousands have testified, it cures Asthma, Bron hitis, Catarrh, Consumption, Nervous Exhaustion, Paralysis and other nervous and wasting diseases, not to mention Scrofula, Dyspepsia, Neuralgia, Rheumatism, Female Diseases, Headache, Vertigo, etc., etc.

It affords us pleasure, therefore, to say to physicians and sufferers that Compound Oxygen is now manufactured at Los Angeles, Cal., the only place on Pacific Coast; by Prof. N. L. Rigby, Ph. B., and treatments are furnished upon prescription or application.

Terms reasonable.

SUNDAY'S SHOOTING.

Jose Preciado Shot and Killed by Juan Pantogas.

A WOMAN AND TWO GUNS IN THE CASE.

The Wife's Version of the Difficulty—Coroner's Inquest Yesterday and Verdict of the Jury.

About 2:30 o'clock on Sunday afternoon Jailor Thompson was rung up, and on opening the door found two men standing on the outside. One of them, Juan Pantogas, stated that he had shot a man out on Aliso road, and desired to give himself into the keeping of the law. He was taken in and assigned quarters, notice of his arrival being at once communicated to the Sheriff's office. The report of the killing quickly spread, and soon a large crowd began to gather around the house where the tragedy took place.

SCENE OF THE KILLING.

A TIMES reporter, learning that the shooting took place on Aliso road, found the exact location to be No. 17, the residence of the man who did the shooting. The injured man (lying on the ground wounded at this time, but who has since died) was Jose Preciado. The cause of the difficulty was a woman, the wife of Pantogas. Preciado was soon conveyed to the residence of his sister on Alameda street, where he died about two hours from the time he was shot. From Mrs. Inez Ramirez Pantogas, wife of the prisoner, the TIMES man learned the following facts:

THE WIFE'S STORY.

Jose Preciado, an unmarried man, until about three weeks ago had lived in the house, as a member of the family. He and her husband were old friends. Somewhere about the 1st of January Preciado made improper proposals to her, which she at once communicated to her husband, and this led to Jose's expulsion from the house. He was forbidden by her husband ever to return. The first time he did so was on Monday, January 19th, when he came to the house about 7 o'clock in the evening. She was alone and told him to go away, as she feared her husband might return. Preciado did go away at once, and she did not see him again until on Sunday afternoon, just before the shooting took place.

Her husband saddled his horse about 2 o'clock and told her he was going out in the country and rode away. He had hardly gone when Jose Preciado came up to the front door and knocked. She opened the door, and without inviting him in, asked what he wanted, he replying that he wanted to see her. She told him to leave, saying that she feared her husband would come back and there would be trouble. To this Jose said that he did not care for his life anyway, and that he would kill Pantogas. Five or ten minutes more time was passed in talk, when the husband rode up to the rear of the house, and from where he sat on his horse, could see through the short hall of the house to where his wife and Preciado were standing. He asked Preciado why he came back there after having been told to keep away, and Preciado replied that "he would go away at once," at the same time going down the steps backwards, drawing a revolver from his pocket as he went. The husband entered a side room and, returning with a double-barrel shotgun, stepped to the front door. Preciado was by this time about thirty feet from the house, still walking backwards, with his pistol pointing towards Pantogas. The woman caught the right arm of her husband as he attempted to discharge the gun, but not in time to prevent the shot from being fired. She then ran through the house into the back yard, where she heard another report, but was not where she could see either of the men. Her husband then came out of the house and said he was going to give himself up to the officer. That was all the woman knew about the affair. She persisted in her denial that Preciado had ever been a particularly warm friend of hers.

Soon after the shots were fired people began to gather around the fallen man, but no one offered him any assistance or indeed touched him until the arrival of Dr. Hanna, who had been sent for. When that gentleman arrived on the scene the wounded man was lying on his face, his head covered with blood and a pool of blood on the ground about him. He turned the man over and was convinced that the injury he had received was fatal, and tried only to make the patient as comfortable as possible. Dr. Baker arrived at this time, and an examination by the two physicians convinced them that the man was fatally hurt. His pulsations grew very weak and he appeared to be sinking. They gave him a hypodermic injection of brandy, which revived him a little. At his brother's urgent entreaty the physicians consented to the removal of the patient to Amelia street, where he died about 4:30 o'clock.

THE INQUEST.

Coroner McFarland held the inquest yesterday morning at the house on Amelia street where the man was lying. After the jurors and interpreter were sworn, the first witness sworn was Mrs. Felicita Seres Crowley, who testified: I know the deceased; I have known Jose Preciado for about six months; he was a frequent visitor to my house for about a month; he was in the habit of coming in my husband's absence; I reside on Aliso street; I was at the house yesterday afternoon where this affair happened; I was at the house of Juan Pantogas when it happened; I could not see Pantogas from where I was when he did the shooting; when the first shot was fired I raised the window and saw the deceased with a pistol in his hand pointing toward the house. I could not see Pantogas; I heard two shots I saw deceased lying on the ground and approached him, when the defendant rode by on a horse and told me not to touch him; I do not know what I said the first shot; I saw deceased standing after the first shot; I did not see from what direction the second shot came; I did not see any other person around there; I do not know whether deceased fired the second shot or not; both shots appeared to be alike—that is, from the same weapon; a woman named Ramona was standing with me, but when the first shot was fired she ran into the street; I saw the wife of the prisoner; she was standing on the other side of the house toward the orange trees; she was on the other side of the house from the deceased; at the time of the shooting I saw no one but those I have mentioned; I do not know of any previous difficulty between Pantogas and Preciado.

Drs. Hanna and Baker testified to substantially the facts given above as to finding the wounded man and gave it as their opinion that Preciados' death was caused by the gun-shot wounds received on Sunday, January 25th.

The fourth and last witness examined was Mrs. Pantogas.

WOMAN IN THE CASE.

I know Juan Pantogas; I saw him yesterday; I know the deceased; I saw Juan Pantogas have some difficulty with deceased yesterday; I saw the deceased when he came to the house; I told him to go away that my husband was in the corral; then he told me he did not care; at that moment my husband arrived; my husband asked him what he wanted, because he had told him some time ago that he did not want him to come to the house; the deceased then put his hand in his pocket, and my husband went to his room; all that was said at that time was that he had forbidden the deceased to come to the house; the deceased then came down stairs with a pistol in his hand, and said he was going away; when he said he was going away, my husband went into the room and came out with a shot-gun; I stood at the door; then I saw the deceased with a pistol still in his hand; at that moment I took hold of my husband by the arm, when one of the shots from my husband's gun went off; [here witness identified the gun]; he then told me to go inside; that was the first shot that was fired; then I heard another shot, but I don't know who fired it; I have not seen the deceased since the second shot was fired until now.

THERE WAS ONLY TWO SHOTS FIRED;

he was forbidden to come to the house because my husband did not want his friendship; they had been friends a long time ago, but I did not know the deceased at that time; I was friendly to the deceased and spoke to him when I saw him; I did not want him to come to the house; I do not think the deceased came to the house yesterday for any other purpose than to commit murder, because he told Mrs. Campbell that he was

GOING TO KILL HIM

that day; when he came to the house, after I had told him my husband did not want him to come to the house, he said to me he did not care for his life; that he was going to kill him anyway; I have been married to the defendant seven years; I am his lawful wife.

Coroner McFarland and Dr. Lasher made an examination of the body, and reported that there were twenty-eight wounds in the body, all produced by No. 2 bird shot. The face, head, chest and shoulders were literally shot full of holes.

The verdict was that the deceased came to his death by reason of gun-shot wounds received at the hands of Juan Pantogas.

Robbed and Beaten.

On Sunday night Dr. White, a dentist living west of the city, was robbed and beaten by footpads on the corner of Adams and Figueroa streets. Dr. White started from his home in a buggy to get medical assistance for his wife, who was taken suddenly ill. At the corner above mentioned two footpads stepped out into the street and called to the Doctor to stop. In turning the horse quickly to drive around them, the gentleman was thrown out of the vehicle, and before he could regain his feet he was set upon by the tramps. A few dollars in silver and a gold ring torn from his finger was the extent of the Doctor's loss. In the scuffle he was struck two or three times and knocked insensible, and on recovering discovered a small cut on his head. He reported the affair at police headquarters about 11 o'clock, but the ruffians had by that time made good their escape. The runaway horse was caught and yesterday was returned to the owner.

Tramps' Refuge.

The abandoned tunnel north of the city is being utilized by the tramps as a lodging place. At intervals along the sides of the tunnel working holes were made which are convenient entrances, and every morning the vagrants may be seen emerging from their free habitation. Here they cook, sleep and loaf, with no landlord to disturb them.

Horse Thief Caught.

About midnight last night, Deputy Sheriff Aguirre arrived in town from Sniza Cañon, bringing Santiago Salas, charged with having stolen a horse from a resident of Boyle Heights, some few weeks ago. The horse was recovered at Calabar.

Dr. Kellogg has a world-wide reputation for his extraordinary cures of difficult and chronic cases.

He is the miracle of all mortal marvels, and one of the greatest wonders of the Nineteenth century, performing cures which equal, if not surpass, the old time miracles, causing the blind to see, the deaf to hear and the lame to walk.

It is self-evident that a physician paying particular attention to a class of cases attains great skill, and physicians in regular practice all over the country, knowing this, frequently recommend cases to this oldest office in America, where every known appliance is resorted to, and the proved good remedies of all ages and countries are used. A whole house is used for office purposes, and all are treated with skill in a respectful manner; and, knowing what to do, no experiments are made. On account of the great number of cases applying, the charges are kept low, often lower than is demanded by others. If you secure the skill and get a speedy and perfect life cure, that is the important matter. Leucorrhœa cured in four treatments. It is the most troublesome disease known to the female sex.

Cancer Cured without pain and speedily. No cutting done.

Tapeworm removed or no charge. Many persons suffer greatly from the effects of tapeworm who doctor for Dyspepsia, Indigestion, Nervous Prostration, Palpitation of the Heart and a Dry Cough, in consequence of the parasite irritating the throat.

THE SYMPTOMS OF TAPEWORM

Are characterized by restlessness at night, sickness of the stomach, vomiting, convulsions, epileptic fits, faintness, stupor, loss of memory, gnawing sensation in the stomach, pains in the side and back, dry cough, a voracious appetite at one time and a loathing of food at another, a choking sensation when lying down, disagreeable breath, face flushed, nose contracted, heaviness of the eyes, bad digestion, stomach bloated at times, emaciation of the body and great nervous debility and dizziness of the head. Some persons may have all the above symptoms while others only have a part of them, and some will have a tapeworm for a long time, and yet never pass any joints or pieces, which is the only positive evidence of its existence. During a residence of eight years in New York city he
